EXPERIENCE

Machine Learning Engineer at Atlassian. Bangalore, India

Jan 2026 - present

- Part of the Anti-Abuse (Trust) team, using AI to help keep Atlassian products safe by preventing fraud, phishing, and scam attacks across products such as Trello, Jira, Confluence, and Loom.

Machine Learning Engineer at Instabase. Bangalore, India

Aug 2022 - Dec 2025

- Worked on leveraging large language models (LLMs), such as GPT-4 and Gemini 2.5, to understand and perform question answering over tabular data in documents such as CSVs, Excel files, PDFs, and images.
- Worked on an image fraud detection problem. The goal is to detect copy-move image forgery in IDs (such as passports, driver's licenses, etc.), bank documents for KYC (Know Your Customer), and other purposes.

Lead Data Scientist at Embibe. Bangalore, India

Aug 2019 - Jul 2022

- Led a team of 6 full-time employees focused on various machine learning and data science projects.
- Contributed to a research project with the goal of "Infusing Knowledge Graphs into NLP models" such as BERT, T5, and Transformers. [arxiv](#)
- Started a Neural Machine Translation (NMT) team to reduce the total cost of language translation without compromising quality. This work reduced the total manual effort by approximately 83% per sentence.

Data Science Intern at Reliance Jio, AI CoE. Hyderabad, India

Jan 2019 - Mar 2019

- Developed a code pipeline for predicting nearby Points of Interest (POIs) using 24x7 traffic data patterns from a cell tower. [proof](#)

EDUCATION

Dharmsinh Desai University, Nadiad, Gujarat, India

Aug 2015 - May 2019

B.Tech in Computer Science Engineering

Overall GPA: 8.34/10

Alpha High School, Junagadh, Gujarat, India

Jun 2012 - Apr 2015

Higher Secondary Education

HSC (Std-12) : 93.33%, 99.40 PR

Secondary Education

SSC (Std-10) : 93.67%, 99.93 PR

PUBLICATIONS

- Keyur Faldu*, Amit Sheth, **Prashant Kikani***, Hemang Akbari. "KI-BERT: Infusing Knowledge Context for Better Language and Domain Understanding" - A novel approach to infuse knowledge graphs into self-attention-based NLP models like BERT, T5, and Transformers. [arxiv](#)

* Equal Contribution

MACHINE LEARNING ACHIEVEMENTS

"Grandmaster" in Kaggle Code

Ranked in the top 1% among 51k+ active users worldwide. [link](#)

"Master" in Kaggle Competitions

Ranked in the top 0.1% among 200k+ active users worldwide. [link](#)

Kaggle NCAA Men's 2021 Contest

Finished 9th (solo gold) among 707 teams worldwide. [link](#)

SKILLS

Languages

Python, C/C++, Java SE, Bash, HTML/CSS/JS

Web Technologies

Flask, Gunicorn, Django, MongoDB

Libraries

PyTorch, TensorFlow, Keras, Scikit-learn, Pandas, NumPy, SciPy, Matplotlib
